The navy shipyard in LIBAU (20°55' E/5°37'N) is on the east side of the naval port.

The shipyard, "Posmare", is an old installation. The shipyard was only slightly damaged during the war and all repairs were completed.

The following plant departments were reported:

Department 1 - repair of boilers and production of buoys  
Department 3 - carpenter shop  
Department 5 - motor department, foundry and lathe  
Department 7 - locksmith

A railroad connection was available. Power was supplied by a power station outside the plant. An auxiliary power plant was in the western part of the shipyard. A large portable power unit on three railroad cars is in the southern part of the submarine pens. For plant layout see Annex.

About 1,000 Soviets and 500 PWs of whom 250 were specialists.
